URL not available New

- sebillet maxime
- **Forum name:** #Inquiry

Hi, I downloaded iPublishCentral Reader from <http://www.elsevierelibrary.fr/> to read offline medical books. But I cant log-in 'cause the site url is not available. I would like to know if their was a way to access offline to the catalog my school paid for.

 Thank you for your help

Hi Sebillet,

Please follow the instructions in this article and you should be able to download and access the eBooks your school has subscribed to. You do not need to enter the site URL on the iPublishCentral Reader. Please ensure that you are logged into the site.
