2005 to 2011	326	746	43.70%
<b>Total</b>	<b>747</b>	<b>746</b>	<b>100.00%</b>

Below the table, there is a section titled "Market Drivers/Future Outlook" with the following text:

The nursing application IT application market has been and will continue to be impacted by:

- The need to improve, and be able to report on, quality outcomes and ARRA measures to meet increasingly detailed claims documentation requirements and qualify for performance-based reimbursement bonus payment.
- The need to improve patient safety.
- Intense competition for limited capital expenditures on IT solutions.
- In this competition, nursing documentation purchases should fare better, since they include functions which are essential for hospitals to meet the ARRA meaningful use criteria, measurements and reporting requirements.
- These systems, especially nursing documentation and EMAR, have proven to be nurse-satisfiers, thus aid in recruiting and
