

How to download eBook on iPublishCentral Reader?

Viji - 2023-03-26 - Comments (2) - iPublishCentral Reader

1. Open the iPublishCentral Reader application on your computer/laptop.
2. After successful login to the iPublishCentral Reader app, Bookshelf page will appear.
3. Bookshelf displays the subscribed eBooks.

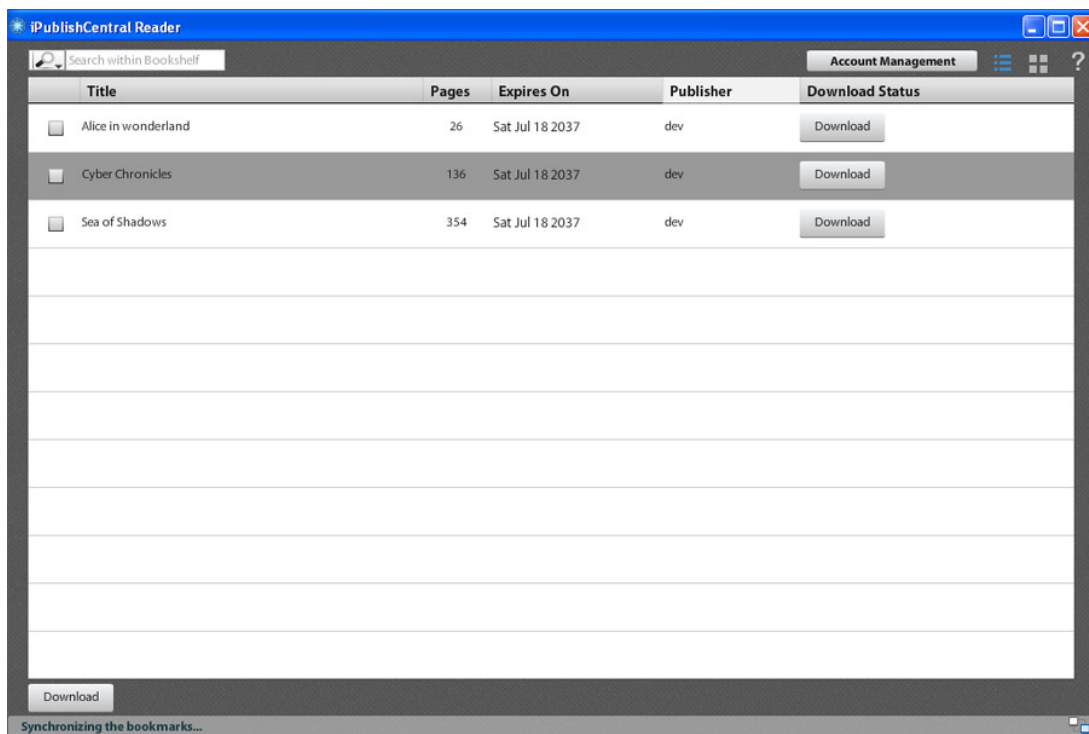

Figure: User's Bookshelf

This will be your home page in the reader. It displays a list of subscribed and purchased eBooks as well as information about an eBook beside the eBook title column. It displays information like total number of pages, expiry date, name of the publisher and download status of an eBook. In addition, you can use the scroll bar in the bookshelf to scroll through the eBooks.

Bookshelf can be viewed in thumbnail  and list mode .
