

Institutional Users - AHA eLibrary

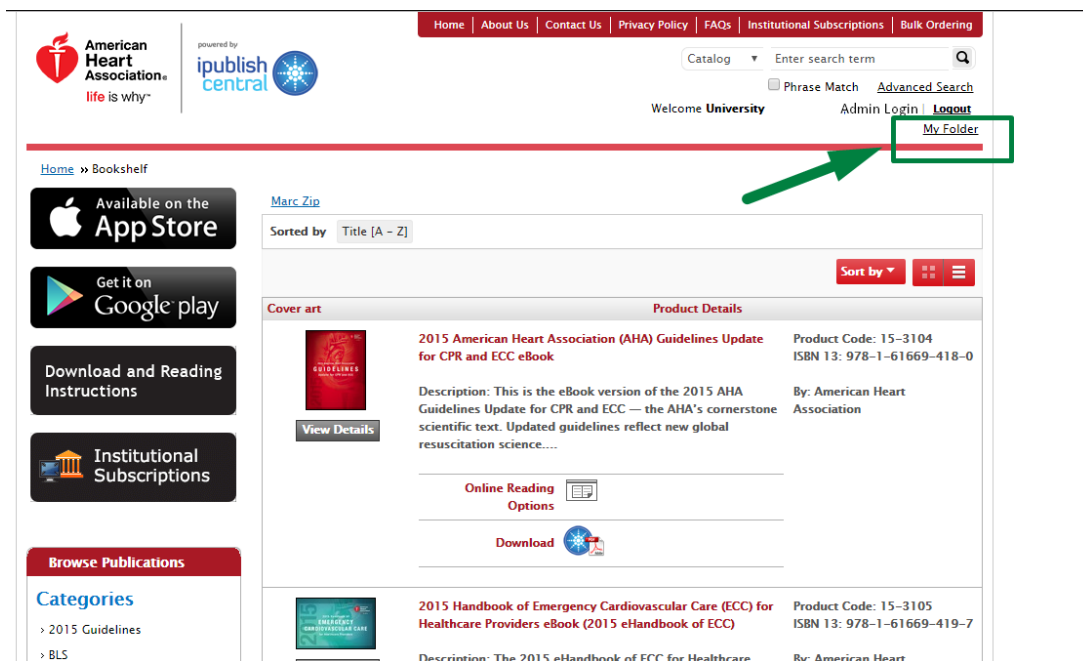

Sandesh - 2023-02-04 - Comments (0) - American Heart Association

Institutional Users

There are two types of users under an institutional account.

1. Admin user
2. Regular user

Once the users are authenticated under an institutional account, they will have the option to login and access the eBooks and personalize their subscription.

The screenshot shows the American Heart Association eLibrary website interface. At the top, there is a navigation bar with links: Home, About Us, Contact Us, Privacy Policy, FAQs, Institutional Subscriptions, and Bulk Ordering. The main header includes the American Heart Association logo, the iPublishCentral logo, a search bar, and a user greeting: "Welcome University". Below the greeting, there are links for "Admin Login" and "Logout". A green box highlights the "My Folder" link, with a green arrow pointing to it. The main content area displays a list of eBooks, including "2015 American Heart Association (AHA) Guidelines Update for CPR and ECC eBook" and "2015 Handbook of Emergency Cardiovascular Care (ECC) for Healthcare Providers eBook (2015 eHandbook of ECC)". The left sidebar contains navigation options like "Available on the App Store", "Get it on Google play", "Download and Reading Instructions", and "Institutional Subscriptions".

The admin user will have additional rights to manage the institution.

Admin User

Admin user has the additional rights to manage the regular user accounts for the institution.

Edit Institution: Admin user can edit the details of the institution and save them.
