

Error #2046

Roshan - 2020-01-29 - 0 Comments - in General

It means a component necessary to open the reader didn't download. Please follow the steps below:

- Clear your browser cache

- Go to this

URL http://www.macromedia.com/support/documentation/en/flashplayer/help/settings_manager03.html

- Uncheck "Store common Flash components to reduce download times.". Click confirm.

- Check it back on. If it exists, this will delete cached copy of the component that FormsCentral needs, and force it to download again.

- Open the reader again.
