## Having trouble with Flash player on Internet Explorer(IE)

Roshan - 2020-11-29 - 0 Comments - in iPortal

If you are having trouble with Flash player on IE8, we would suggest you to try using any other browser (ex: [Google Chrome](#) browser already includes Adobe® Flash® Player built-in. Google Chrome will automatically update when new versions of Flash Player are available. If you are still having issues, please download flash directly on your system and install it by clicking on the link : (Released 11/6/2012) [Flash Player 11.5.502.110](#) (146.38 MB)
