If the newly purchased eBooks are not showing up on the **Thieme Bookshelf** app on your iPad,

- Open the iPad app, Tap on the Bookstore icon.
- Once you are on the screen, please tap on the **Sync Button**

If you are still having issues after synchronizing on the app, please click on the **Account Tab** and Sign out and quit the app.

Re-open the app and Login again with your registered credentials.

If this does not resolve the issue, please uninstall and reinstall the app.
