IMPORTANT: Certain devices which are incompatible may suffer from UI issues.

Please follow the prompts below to install the MIT Press eBooks on your Android Tablet if you are not able to locate the app on the Google Play Store or if it says your Device is Incompatible even though it is 7 inches and above and is running Android 4.0 and above.

Open this article on your device, tap on the Download APK button and download the file to your device.

If you are prompted with an alert "**This type of file can harm your device, Do you want to keep MIT.apk anyway**" click **OK**.

Do not worry, the file is perfectly secure & safe.

Click on Install on the prompts

Allow Google permission to verify.

Once installed open the app.

Tap on the Menu option  in the app and tap on the **Account** option

Enter your username & password on MIT Press eBook Store and Tap on Sign In

Your subscribed eBooks will be available under the Bookshelf ready to download.
