iOffline Un-installation on MAC OS 10.7.x and above

Roshan - 2020-01-29 - 0 Comments - in iOffline

Please follow the below mentioned steps to uninstall the iOffline reader:

- Install the application "**iOffline Cleaner**"
- Run the **iOffline cleaner** application
- From the path Go -> Mac -> system name -> Library -> Preferences -> ioffline folder (with unique numbers): move to trash/delete[Hold down the Alt (Option) key when using the Go menu. The user library folder is listed below the current users home directory]
- MAC -> Application folder -> **iOffline.app** (delete the **.app** file)
- Go to Trash and select "**Empty Trash**".

Note: AIR application should be version 3.0 and above.
