

iOffline Un-installation on Windows Vista

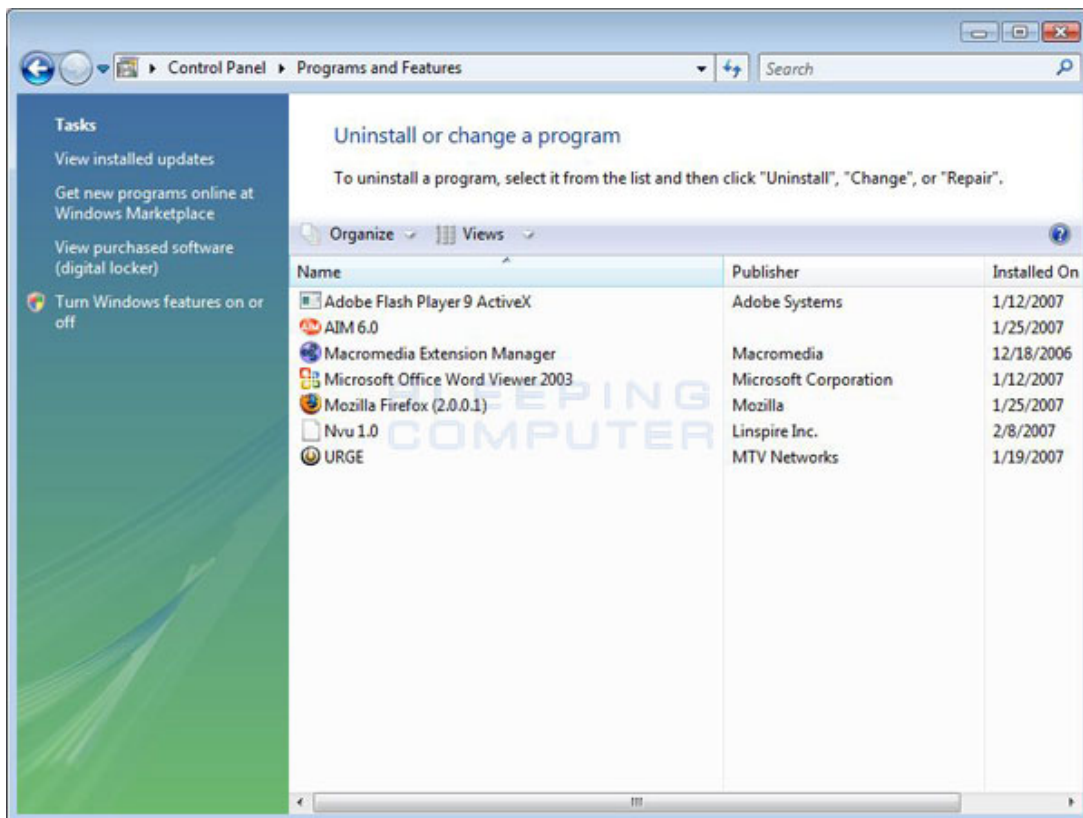

Roshan - 2020-01-24 - 0 Comments - in iOffline

Please follow the below mentioned steps to uninstall the **iOffline reader**.

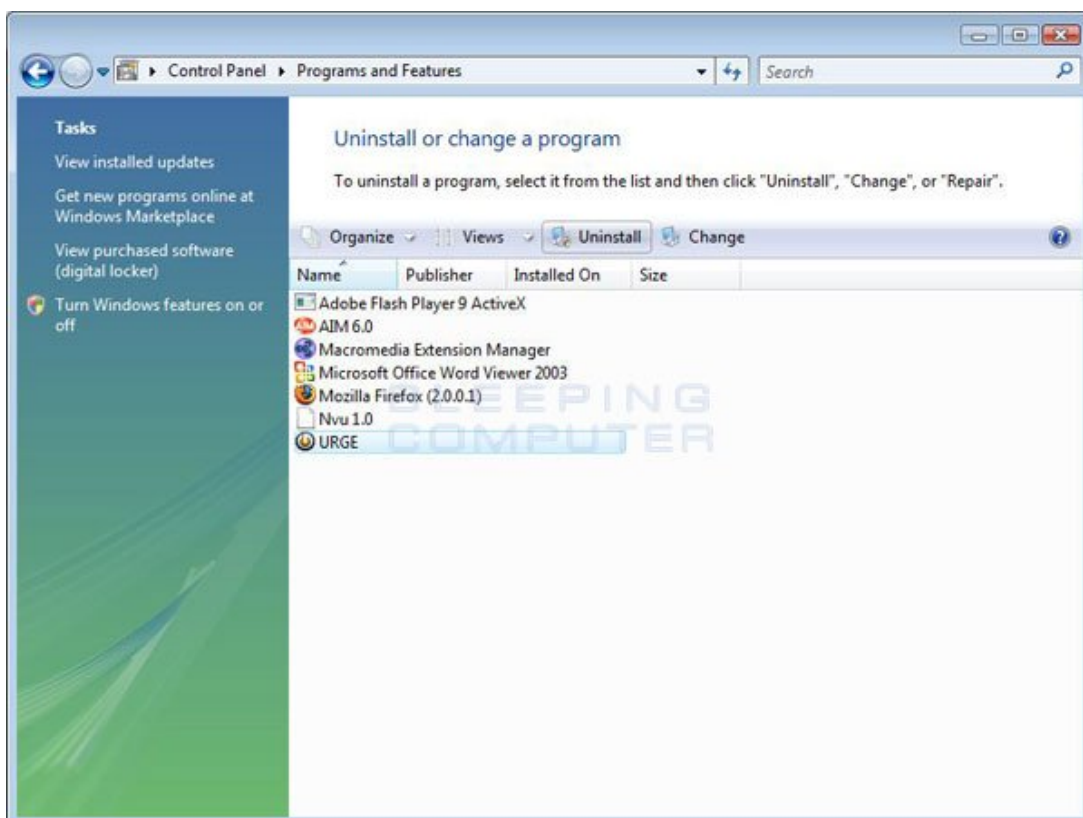

- Install the application "**iOffline Cleaner**" attached below.
- Run the iOffline cleaner application.
- Click on the Start button to open your Start Menu. The Start button looks like this:

- When the Start Menu opens click on the Control Panel menu option.
- When the Control Panel window opens click on the Uninstall a program option option under the Programs category.
- This option is shown by the arrow in the image below.
- If you are using the Classic View of the Control Panel, then you would double-click on the Programs and Features icon instead.

- You will now be at the Programs and Features, or Uninstall or change a program, screen as shown below.

- Look through the list of programs for **iOffline** and then left-click on it once so that it becomes highlighted.
- Once you highlight it you will see two new options next to the Organize and View button called Uninstall and Change.

- Control Panel -> Programs -> Program and Features -> Select "iOffline" and click on "uninstall".

Note: AIR application should be version 1.5 and above.
