No Sound on iPad app

Roshan - 2021-10-27 - [0 Comments](#) - in [iPad](#)

In order to fix no sound issue on an iPad, you need to follow the instructions below

1. Double tap the home button
2. Swipe from left to right
3. Tap the speaker icon to the far left
4. It should show "**Mute Off**" below the play button
5. Listen to app sound once again

This should fix your selectively silent iPad.
