

Questions about ebook subscription

Question:

Hello: I had a couple of questions on the Writer's Digest ebook subscription that weren't covered by the FAQ:1) Will I always need Web access to read the books? It doesn't sound like they're downloadable, and, at one page at a time, it's probably difficult to print chapters, so I was wondering how to make it work on a plane with no Internet connection.2) If I opt for the 19.99 subscription deal, can I cancel at any time or will I have to go through the whole year?

Answer:

Writer's Digest eBooks is an online library which allows you to access to your subscription as long as you are connected to internet and on a computer. Download or Offline access is only possible using Writer's Digest eBooks iPad app , wherein once you have the book downloaded to the Bookshelf, you do not need Internet to access the eBook.

\$19.99 is a monthly subscription charge and it is auto renewed every month **\$199.99** is a yearly subscription that is also auto renewed every year, you can always cancel the auto renewal any time you wish before it gets renewed again for the following month/year but we do not have a cancellation policy on mid way subscription cancellation or refund.

Please follow the below instructions to cancel the auto renewal option.

After successful login to the Writer's Digest eBooks, click on "**MY FOLDER**" button on eBook site.

Click on "**Profile Settings**" drop down link on My Folder page of the Writer's Digest eBook site.

Please select the "**Manage Subscription**" option from the list.

Click on "**Submit**" button to cancel the auto renewal option for the Writer's Digest eBooks.
