About CADCIM

CADCIM Technologies is one of the world's leading providers of quality CAD/CAM/CAE, Civil, and Animation textbooks. Additionally, the company publishes textbooks in various other fields such as GIS and Computer Programming. We also provide Free Teaching and Learning Resources with all our textbooks to simplify, strengthen, and supplement teaching and learning. Apart from publishing textbooks, the company also provides consultancy services and online training to universities and colleges all over the world.

Incepted in 1992 under the leadership of Prof. Sham Tickoo of Purdue University Northwest, USA, the company publishes high quality textbooks with comprehensive study material. The team of authors at CADCIM Technologies consists of qualified and experienced engineers, programmers, and animation specialists who work with Prof. Tickoo to produce textbooks on multiple software packages. Within a short span, the company has established an unrivalled

market worldwide through its textbooks on various software packages such as SolidWorks, Autodesk Inventor, CATIA, Autodesk Revit Architecture, 3ds Max, VB.NET to list a few.

The company has grown steadily and has carved a niche for itself in the world market with its textbooks being in demand in countries as diverse as USA, China, Italy, Philippines, UK, Sweden, Denmark, Norway, Ireland, Spain, Russia, and India. Due to the simplicity, clarity, and in-depth coverage of subjects, CADCIM textbooks have been well-appreciated and adopted by various colleges and universities all over the world. Moreover, some of the textbooks published by CADCIM have been translated in many languages including Italian, Japanese, Chinese, Serbian, Korean, and Russian.

Apart from authoring textbooks, CADCIM Technologies also provides Online Training Services on CAD/CAM/CAE, Civil, GIS, Animation, and Computer Programming to individuals, students, training centers, corporate executives, and educational institutions. Our online training can be delivered via internet at any time, any pace, and at any place in the world. The classes are conducted by Prof. Sham Tickoo, Purdue University Northwest, USA or his team of authors who have co-authored one of the best-selling textbooks on various software packages.

Working with the mission of providing reliable, cost-effective and competitive engineering solutions to the manufacturing industry, corporate businesses, and educational institutions, CADCIM also offers professional Consultancy Services on CAD/CAM/CAE, Civil, GIS, Animation, and Web-based Applications. We also offer consultancy services in technical documentation, multimedia product development, and training services. The focus of our consultancy team is to work with its industry partners, utilize its technical expertise, and provide fast, accurate, and reliable consultancy services to keep the life cycle of your product on track.

Yet another feature of CADCIM Technologies is the services the company provides to faculty members in terms of upgrading existing CAD-related textbooks or training material to the latest release or doing their comprehensive technical editing and copy editing. In addition, the company specializes in creating layouts as well as attractive cover page designs for manuscripts, inserting artwork, and preparing customized business presentations using the state-of-the-art tools.
